

UNDERSTANDING THE AC MOTOR REPAIR PROCESS

1 DAY SEMINAR

Presenter: Ray Ratcliff
Hupp Electric Motors

- Do you have questions about what happens when you send your motor in for repair?
- What tests are performed, and what do they mean?
- How we determine what surfaces need machine work?
- Why did my motor fail?
- What can we do to help prevent future failures?
- What repair information is available to you, and how do you make sense of it?
- What information can I provide to Hupp to help determine the failure?

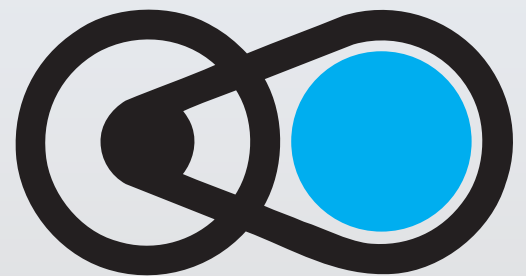

If any of these questions sound familiar to you, this will be a great opportunity to learn more about our repair processes.

Join us on Sept. 11 • 2026
Class time • 8am - 4pm

Breakfast, lunch and shop tour will be provided
